

Cut Protection Product Guide

Super

Why Superior Glove

Protection workers want to wear

Workers shouldn't have to choose between comfort and safety. We innovate to fit the protection they need into comfortable safety gloves and other PPE they'll want to wear.

North American Innovation

We research, design, and test our products at our Canadian headquarters to ensure safety, effectiveness, and quality.

Injury reduction education and training

We offer free resources and services to help companies develop safety programs that eliminate and reduce injuries through non-PPE changes that minimize workplace hazards and improve safety culture.

Extreme Cut

What you need to know about extreme cut protection

Gloves and sleeves that provide extreme cut resistance are designed for tasks such as meat processing, industrial blade maintenance and changing, pulp and paper maintenance, glass manufacturing, heavy metal stamping, and glass installation.

When looking for extreme cut protection levels on gloves, look for the following ANSI cut levels represented by the following icons:

Extreme Cut Protection Level A9

TENACTIV™ S21TXUFN | 5 - 12

World's thinnest silicone-free maximum cut protection

The world's thinnest gloves to deliver the industry's highest-level of cut protection for the most hand dexterity and sense of touch. It also features ultra-thin nitrile palm coating for better wet grip and are touchscreen compatible.

CFIA FDA

EXTREME CUT PROTECTION | LEVEL A9

Featuring the industry's maximum cut resistance

CONTENDER™ SKGCXPS | XS - 2XL

Silicone-free maximum cut protection for tasks that don't require extra grip

TENACTIV™ S13TAWFN | 6 - 12

Maximum cut protection with foam nitrile palm coating for better wet grip

TENACTIV™ STAGCXPU | 5 - 12

Maximum cut protection with palm coating for better dry grip and touch sensitivity

⚠ WARNING: Known to the State of California to cause cancer, birth defects, or other reproductive harm.
For more information, go to P65warnings.ca.gov

TENACTIV™ STAGLXPB | 6 - 11

Maximum cut and hypodermic puncture protection with latex palm coating for grip

ENDURA® 378CXGOB | S - 3XL

Maximum cut-resistant leather gloves that resist water and oil penetration

ENDURA® 378GCXVB | S - 3XL

Maximum cut-resistant leather gloves that resist water and oil penetration with back-of-hand impact protection

TENACTIV™ S18TXFTLP | 7 - 11

Level A6 high cut-resistant gloves with Level A9 maximum cut protection leather palm patch and exposed finger and thumb for touch sensitivity

SUPERIOR® MMG | 2XS - 2XL

Food safe stainless steel chainmail gloves with maximum cut protection

CFIA FDA

TENACTIV™ KPSTA | S - 2XL

Food safe sleeves with maximum cut protection and inner bicep elastic and grip to stay in place

14", 18", tubular cut

Extreme Cut Protection

Level A8 & A7

TENACTIV™ SBTAKLP | S - 2XL

Reinforced with leather palms for durability

TENACTIV™ STACXPNRT | 5 - 12

Non-marring micropore palm coating for better wet grip plus touchscreen compatibility

TENACTIV™ STXPNRVB | 5 - 12

Orange hi-viz impact protection plus micropore palm coating for better wet grip

EXTREME CUT PROTECTION | LEVEL A8 & A7

Food Safe String Knit

Washable, bleachable, and pre-shrunk to maintain size. Antimicrobial with blue yarn for better contamination detection.

SURE KNIT™ S10SXB | XS - 2XL

Thicker for more cushioning

CFIA FDA

SURE KNIT™ S10SXBDB | XS - XL

Added patches for deboning protection

SURE KNIT™ SLSXB | M - XL

Food safe antimicrobial sleeves with extreme cut protection and inner bicep elastic and grip to stay in place

9", 18", 21", 24", tubular cut, available with or without thumbhole

CFIA FDA

Color-coded extreme cut protection

Food safe and color-coded gloves for allocation to different areas in food processing plants to help prevent cross contamination. Antimicrobial with extreme cut resistance and 360° cut protection.

High Cut

What you need to know about high cut protection

Gloves and sleeves that provide high cut resistance are designed for tasks such as oil & gas drilling and processing, automotive and aerospace manufacturing/assembly, HVAC manufacturing, recycling sorting, and metal stamping.

When looking for high cut protection levels on gloves, look for the following ANSI cut levels represented by the following icons:

High Cut Protection String Knit

HIGH CUT PROTECTION | STRING KNIT With Palm Coating

TENACTIV™ STAGPN | 5 - 12

With micropore nitrile palm coating for better wet grip

TENACTIV™ STAGHVPN | 5 - 12

Hi-viz with micropore nitrile palm coating for better wet grip

EMERALD CX® SCXPNTFC | 6 - 11

With micropore nitrile double-coating for use in wet and oily conditions that don't involve full submersion

EMERALD CX® S13CXPNT | 6 - 11

Silicone-free gloves with heat protection up to 140°C or 284°F plus micropore nitrile palm coating for better wet grip

TENACTIV™ STAGPNVPI | 6 - 12

Padded palms for vibration dampening and comfort plus micropore nitrile palm coating for better wet grip

TENACTIV™ S13TAXFN | 6 - 12

Everyday 13-gauge knit gloves with foam nitrile palm coating for better wet grip

EMERALD CX® S10NXFN | 5 - 12

Silicone-free with foam nitrile palm coating for better wet grip

EMERALD CX® S10NXFNLT | 5 - 11

Extra comfort 10-gauge knit gloves with reinforced thumb crotch for durability plus foam nitrile palm coating for better wet grip

TENACTIV™ S18TAXFN | 6 - 12

Hi-viz ultra-thin gloves with excellent sense of touch and foam nitrile palm coating for better wet grip

TENACTIV™ STAGCTPU | 6 - 10

High cut-resistant gloves that tear away if caught in fast-moving rotational equipment to avoid hazardous snags plus polyurethane palm coating for better dry grip

TENACTIV™ STAGXPU | 5 - 12

Softer and more comfortable everyday 13-gauge gloves with polyurethane palm coating for better dry grip

TENACTIV™ STAFGPU | 5 - 12

More durable everyday 13-gauge gloves with polyurethane palm coating for better dry grip

TENACTIV™ STAGHVPU | 5 - 12

Hi-viz with polyurethane palm coating for better dry grip and touch sensitivity

TENACTIV™ STACKXPURT | 5 - 12

Maximum abrasion resistance with reinforced thumb crotch for high durability plus polyurethane palm coating for better dry grip

DEXTERITY® S10LXPB | 6 - 11

Food safe with maximum hypodermic puncture protection and latex palm coating for grip

13-gauge gloves with dotted PVC palm coating to balance flexibility, breathability, and grip

MADE IN
THE AMERICAS

EMERALD CX® S13CXSI | 6 - 12

Adhesive-resistant and liquid-resistant silicone palm coating with heat protection up to 200°C / 392°F

DEXTERITY® SKG/PXNE | 6 - 11

Arc flash-rated cold protection with high cut resistance and neoprene palm coating for steady grip

HIGH CUT PROTECTION | STRING KNIT Without Palm Coating

CONTENDER™ SBKG | XS - 2XL

Everyday 13-gauge cut-resistant gloves

EMERALD CX® SWTACSL | XS - 2XL

Comfortable 13-gauge cut-resistant gloves with cotton lining

DRAGON™ K825KP | L, XL

Maximum heat protection for temperatures up to 320°C / 608°F

DRAGON™ TK835LG2 | S, L

Maximum heat protection for temperatures up to 320°C / 608°F with extended 4" leather cuffs for wrist safety

CONTENDER™ TRFGK | XS - XL

Maximum heat protection up to 320°C / 608°F with better grip in wet conditions

CONTENDER™ SPGRK | XS - XL

High heat protection up to 260°C / 500°F

CONTENDER™ SPGRK4 | XS - XL

High heat protection up to 260°C / 500°F with extended 4" cuffs

COOL GRIP® SPGRK/A | XS - 2XL

High heat protection with additional liner to handle objects
40% longer in temperatures up to 260°C / 500°F

HIGH CUT PROTECTION | STRING KNIT

With Impact Resistance and Palm Coating

TENACTIV™ STXWPNVB | S - 2XL

Breathable waterproof and windproof gloves with Level 2 impact
protection and micropore nitrile palm coating for better wet grip

ANSI
Probe

TENACTIV™ STXWLPNVB | 7 - 11

Cold weather, breathable waterproof and windproof gloves with high cut resistance and micropore nitrile palm coating for better wet grip

DEXTERITY® S15GPNVB | 6 - 12

Comfortable high cut resistance with micropore nitrile palm coating for better wet grip

TENACTIV™ STAGYPNVB | 5 - 12

Hi-viz with high cut protection plus micropore nitrile palm coating for better wet grip

TENACTIV™ SHVPNFBVB | 7 - 11

Vibration-dampening padded palms with hi-viz back plus micropore nitrile palm coating for better wet grip

TENACTIV™ STXFNVB | M - 2XL | FOAM NITRILE

Patent-pending maximum impact protection that's low profile and optimized for dexterity plus high cut resistance and foam nitrile palm coating for better wet grip

ANSI
Probe

HIGH CUT PROTECTION | STRING KNIT

With Leather Palms

TENACTIV™ S18TXFTLP | S - 2XL

Zoned cut protection with maximum Level A9 cut resistance in the most vulnerable areas and Level A6 cut protection in other areas to balance touch sensitivity and protection

EMERALD CX® S13KBGLP | S - 2XL

With goatskin leather palms that are thinner and more flexible for better dexterity

EMERALD CX® SKWCPLP | XS - 2XL

Moderate heat protection up to 200°C / 392°F with cowhide leather palms that are thicker for more durability and comfort

TENACTIV™ STAWLP | S - 2XL

Softer and more comfortable moderate heat protection up to 200°C / 392°F with cowhide leather palms that are thicker for more durability

ACTION™ SKLP | XS - 2XL

With cowhide leather palms that are thicker for more durability and comfort

High Cut Protection Leather

ENDURA® 378GKGDT | S - 2XL

Cold protection in premium leather with oil and water resistance

ENDURA® 378GTXHVB | S - 2XL

Hi-viz leather gloves with patent-pending palm strips for improved grip and dexterity

ENDURA® 378GTXHVL | S - 2XL

Hi-viz leather cold protection with patent-pending palm strips for improved grip and dexterity

ENDURA® 378GTXOT | S - 2XL

Leather gloves with patent-pending palm strips for improved grip and orange fingertips for visibility

ENDURA® 378GTXOTL | S - 2XL

Leather cold protection with patent-pending palm strips for improved grip and orange fingertips for visibility

ENDURA® 378GKTFG | XS - 3XL

Arc flash-rated leather gloves with heat protection up to 200°C / 392°F

ENDURA® 505KGWS | S - 2XL

Stick welding gloves with 6" cuffs for added wrist and forearm protection

ENDURA® 69BSKFFL | S - 3XL

Durable leather gloves in fitter style

**ENDURA® 378GKGT L | XS - 3XL**

Cold protection that keep hands warm down to -30°C / -22°F

**ENDURA® 399GTXTL5 | S - 3XL**

High cut protection with extended gauntlet cuffs and protection from cold down to -10°C / 14°F

Leather mitts for cold protection

High Cut Protection

Impact Resistant

HIGH CUT PROTECTION | IMPACT RESISTANT

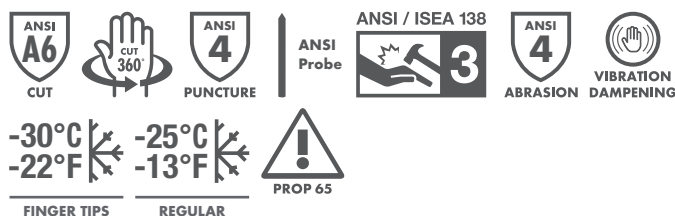

Premium Leather With Padded Palms

Our premium leather gloves are treated with Oilbloc™ which resists water and oil penetration that can degrade the material and present safety issues. Padded palms provide vibration dampening and enhance comfort.

ENDURA® 378KMT4P | XS - 3XL

Cold weather multi-hazard protection with high cut resistance

ENDURA® 378GKG4P | S - 3XL

Fire-resistant high cut protection with arc flash resistance

ENDURA® 375GKGVB | S - 2XL

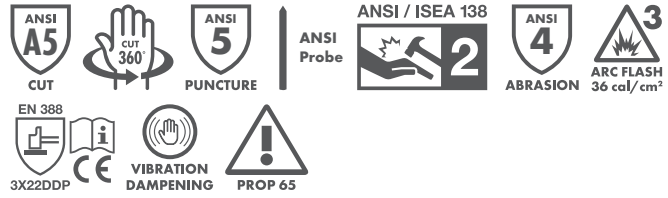

High cut protection with 6" gauntlet cuffs

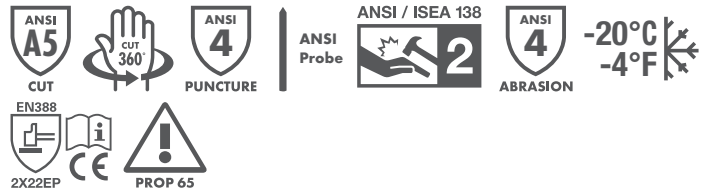

ENDURA® 378GKGVVB | XS - 3XL

Arc flash-rated multi-hazard gloves with Level 2 impact resistance

ENDURA® 378KGTVB | XS - 3XL

Level 2 impact protection that keeps hands warm down to -20°C / -4°F

HIGH CUT PROTECTION | IMPACT RESISTANT

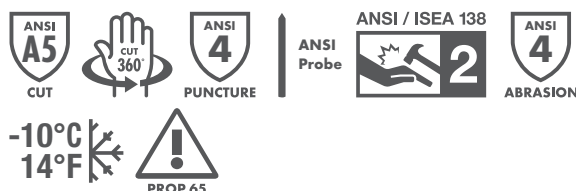

Premium Leather Without Padded Palms

Our premium leather gloves without padded palms offer a better sense of touch and dexterity. These gloves are also treated with Oilbloc™ which resists water and oil penetration that can degrade the material and present safety issues.

ENDURA® 375KGTVB | S - 3XL

Level 2 impact resistance and cold protection with 6" cuffs for wrist and forearm protection

ENDURA® 378GTXVBG | XS - 3XL

Level 2 impact protection with hi-viz 6" cuffs for enhanced visibility and wrist and forearm protection

HIGH CUT PROTECTION | IMPACT RESISTANT

Economy Leather With Padded Palms

An economical alternative for tasks that don't require oil or water resistance. Padded palms provide vibration dampening and enhance comfort.

ENDURA® 378GKGVBE | XS - 3XL

Level 2 impact protection

ENDURA® 378GKGVBG | XS - 3XL

Level 2 impact resistance with 6" cuffs for wrist and forearm protection

ENDURA® 378GKGTVE | XS - 3XL

Level 2 impact protection that keeps hands warm down to -25°C / -13°F

GLOVE SIZING GUIDE

A proper fit is extremely important. An uncomfortable fit causes hand fatigue and ultimately could lead to a potential workplace hazard.

Measure the width of your hand from the base of your first finger and across your knuckles.

5 / 2XS	50 mm / 2 inches	9 / L	101 mm / 4 inches
6 / XS	63 mm / 2.5 inches	10 / XL	113 mm / 4.5 inches
7 / S	75 mm / 3 inches	11 / 2XL	126 mm / 5 inches
8 / M	88 mm / 3.5 inches	12 / 3XL	140 mm / 5.5 inches

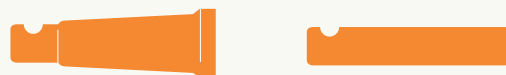

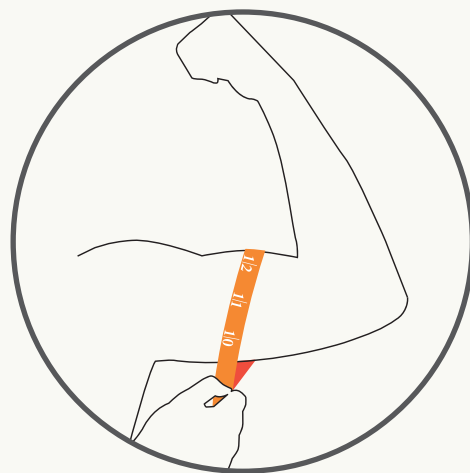

SLEEVE SIZING GUIDE

To find the best fit, measure the circumference of your bicep and choose sizing according to the chart below.

Sleeves come in multiple lengths.

2XS	250 mm / 9.75 inches	L	295 mm / 11.75 inches
XS	260 mm / 10.25 inches	XL	370 mm / 14.5 inches
S	265 mm / 10.5 inches	2XL	450 mm / 17.5 inches
M	280 mm / 11 inches		

For a more natural fit, sleeves come in a tapered version which provide better comfort and staying power. Tapered sleeves are designed to fit the contours of your arm and won't lose shape due to stretching
