

Food Safe Protection Product Guide

Suppe

Why Superior Glove

Protection workers want to wear

Workers shouldn't have to choose between comfort and safety. We innovate to fit the protection they need into comfortable safety gloves and other PPE they'll want to wear.

North American Innovation

We research, design, and test our products at our Canadian headquarters to ensure safety, effectiveness, and quality.

Injury reduction education and training

We offer free resources and services to help companies develop safety programs that eliminate and reduce injuries through non-PPE changes that minimize workplace hazards and improve safety culture.

What you need to know about food safe compliant PPE

Food safe compliant PPE is used in the food industry to prevent contamination.

When looking for food safe products, look for the following icons:

 **CFIA** Canadian Food Inspection Agency compliant

FDA Food and Drug Administration compliant

Food Safe

Extreme Cut Protection

EVANSTON GLOVES

TENACTIV™ S21TXUFN | 5 - 12

World's thinnest silicone-free maximum cut protection with foam nitrile palm coating for better wet grip

CFIA FDA

SUPERIOR® MMG | 2XS - 2XL

Chainmail gloves with maximum cut resistance and 360° cut protection

SURE KNIT™ SLSXB | M - XL

Food safe antimicrobial sleeves with extreme cut protection and inner bicep elastic and grip to stay in place
9", 18", 21", 24", tubular cut, available with or without thumbhole

GLOVE SIZING GUIDE

A proper fit is extremely important. An uncomfortable fit causes hand fatigue and ultimately could lead to a potential workplace hazard.

Measure the width of your hand from the base of your first finger and across your knuckles.

5 / 2XS	50 mm / 2 inches	9 / L	101 mm / 4 inches
6 / XS	63 mm / 2.5 inches	10 / XL	113 mm / 4.5 inches
7 / S	75 mm / 3 inches	11 / 2XL	126 mm / 5 inches
8 / M	88 mm / 3.5 inches	12 / 3XL	140 mm / 5.5 inches

SLEEVE SIZING GUIDE

To find the best fit, measure the circumference of your bicep and choose sizing according to the chart below.

Sleeves come in multiple lengths.

2XS	250 mm / 9.75 inches	L	295 mm / 11.75 inches
XS	260 mm / 10.25 inches	XL	370 mm / 14.5 inches
S	265 mm / 10.5 inches	2XL	450 mm / 17.5 inches
M	280 mm / 11 inches		

For a more natural fit, sleeves come in a tapered version which provide better comfort and staying power. Tapered sleeves are designed to fit the contours of your arm and won't lose shape due to stretching
